**SANYO**

- **ECOi Multi-zone Conditioning – Variable Refrigerant Flow**
  - Simultaneous Heating and Cooling (Energy Recovery)
  - Variable Refrigerant Flow
  - Advanced Inverter Controlled Compressor Technology
  - Modular Design
  - Superior Dehumidification
  - Outdoor Unit from 3 to 25 tons with 1 to 40 Indoor Units Connected
  - Energy Efficient yields **LEED** Application
- Sanyo Ductless Split Systems – A/C only, Heat Pumps, Elec. Heat
- PTAC Units – Extremely Quiet, Two Fan Motors, 5 yr No-Question Warranty, Extremely Price Competitive – Best in the Industry

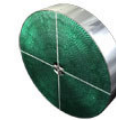

- Custom Air Supply Systems
- Engineered for Easy Installation and Short Commission Time
- Complete Packaged Penthouse – AHU, Boiler, Chiller, Pumps, Controls, Energy Recovery, DX
- Markets Served - Pharmaceutical, Healthcare, Industrial, Institutional, Military, Food Processing

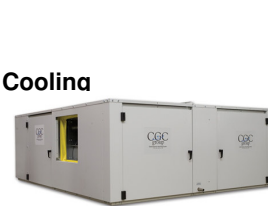

**SEMCO**  
INCORPORATED

- Energy Recovery Products
- Total Energy Recovery Wheels
- Pinnacle Ventilation System
- Flexicool Chilled Beams – LEED
- Fresh Air Ventilators
- Acoustic and Thermal Panels
- A Fläkt Woods Company

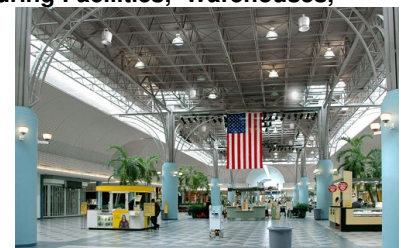

**CGC**  
GROUP  
HYBRID HEAT PUMP SYSTEM

- Hybrid Water Source Heat Pumps
- Heat Recovery through Simultaneous Heating and Cooling
- No Reversing Valve
- Zone Control

**ZOO** FANS

- **Z**one **O**f **O**ccupancy Fan Control for Increased Thermal Comfort
- Increase Energy Efficiency of Existing HVAC Systems – up to 40%
- Perfect for Big Box Stores, Grocery Stores, Manufacturing Facilities, Warehouses, Gymnasiums, Airports, Terminals
- Highly Engineered
- Easy to Install
- Simple to Control
- Variable Speed Controller

Providing balanced solutions for your custom needs.

- Commercial HVAC Drives: 1/2 to 500 Horsepower
- Air Handlers, Cooling Towers, Pumps
- Combine Reduced Size and Cost with Step Changes in
- Variable Frequency in all Drives
- Downloadable Software Support Tools

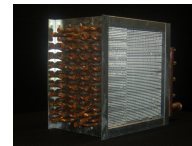

- Vertical Riser Fan Coil Units for Building Designs and Configuration
- Water Source Heat Pumps
- Room Fan Coil Units

- Heating/Cooling Makeup Air Units – 100% Outside Air
- Direct and Indirect Fired Units
- Energy Recovery Units
- Packaged HVAC Units
- Dehumidification
- Air Rotation Units
- Hydronic/Electric Heaters
- Dedicated Outside Air Systems
- Infrared Heating

- New Heating and Cooling Coils
- Sentry-Guard Burst-Proof Coils
- Replacement Coils – All Types
- Central Station Air Handling Units
- Fan Coils
- Fluid Coolers
- Rooftop Packaged HVAC Units 2-20 Tons

- Mission Critical Air Conditioning Systems
- Data Center Cooling, Computer Rooms, Laboratories
- Telecommunication Switching Centers
- Industrial Control Stations
- 1.5 to 30 Tons

- State of the Art Manufacturing Process
- LEED Painting Process
- Bolted Construction
- No-Through Metal Design at ALL Locations
- Engineered with Infinitely Variable Aspect Ratios
- Knock-down Field Assembled Air Handlers
- Unit Sizes from 1000 cfm to 200,000+ cfm
